More Republican Victories.

The city of Cincinnati has been carried by the Republicans, by 1000 majority. Ten Republicans to six democrats in the Council.

Detroit and Cleveland have also gone Republican.

In *St. Louis*, Filley, Republican, for Mayor, has 2500 over Bagy, democrat, and 4000 over Wyman, American. His plurality will be probably increased to 3000. The Republicans also elected their whole city ticket, and have a large majority in the Council.

In the Michigan State election for a Supreme Judge, the Republicans are reported to have elected George Martin, by 10,000 majority—making handsome gains in many sections.—This election, we think, the Boston Post's correspondent had great hopes of carrying. He saw great re-action among the people, and much disgust at Republicanism. Probably his observations were mostly confined to certain classes and localities in the large towns.

In the Legislature on Monday, Mr. Gilbert of Bath offered a bill to enable the railways of Maine to unite and form one line from Portland to Bangor, with a view to aid its construction further east. This bill failed of a passage.

The bill to encourage manufactures, (allowing cities and towns to exempt certain branches of industry from taxation for ten years,) was passed.

The bill increasing the salaries of the Judges of the Supreme Court from $1800 to $2100, passed the House, but was defeated in the Senate.

The Salary Bill giving members of the Legislature $150 pay each session, passed.

ANOTHER ILLUSTRATION OF SLAVERY.—*A Father Imprisoned for Harboring his own Son.* The Washington correspondent of the New York Post relates the following case, in which the northern apologists for slavery must say, if they are consistent, that the father is justly punished.

There was a singular slave case in the Criminal Court yesterday. A free colored man was tried before a jury for harboring his own son! A couple of months since the offender was brought before a common justice on the above charge, and a bail of $2000 was required, and it was given. The colored man has a wife who is a slave, and one by one of his children have been snatched away from him at the age of ten years, and sold off. The father keeps a house, to which the wife comes on Saturday nights, spending her Sundays at home. Her master has been very glad to make use of the father's affection for his children to get them fed and boarded till they were of a suitable age for selling, but he has always pounced upon them at a certain age, and sold them off, without allowing the parent a dollar for his trouble. In the present case the boy ran back home, and the father did not turn him out of doors! For that offence a Washington jury have brought him in guilty of harboring slaves, and his punishment will be severe. It will do now for our local journals to call attention to the sufferings of the Italian patriots, and if Madame Mario were only here, I dare say she might collect a weeping audience—if she would agree not to say anything about American slavery.

That "Miscellaneous" Democracy Costs.

Hon. Mr. Abbott, of the Third District in Maine, in his speech upon Government expenditures, delivered Feb. 21st, very happily called attention to the monstrous sum it requires to support the "miscellaneous" wants of the democracy of this age and generation. He said:

I desire, sir, to call your attention, and the attention of the country, to a stupendous fraud upon the Treasury and upon the people, in the form of appropriations made for *miscellaneous* purposes. Now, annual appropriations were wanted annually for such purposes, and only a small appropriation. In 1800, the appropriations for miscellaneous purposes amounted to $193,-50 ; in 1810, $315 783 ; in 1850, $1,353 297. In 1857, appropriations for miscellaneous purposes were made to the enormous amount of $18,946,159; and increased a trifle in 1858.—Thus we see that the Government now expends annually, for these miscellaneous purposes, fe[illegible] times as much as the whole expenditures of the Government during the first years of Washington's Administration; and $6,000,000 more than the entire expenditures of the Government in 1830. Where does this $18,000,000—nay, almost $19,000,000—appropriated annually for miscellaneous purposes, go? Sir, I desire to know what has become of the $37,000,000 appropriated the two past years for miscellaneous purposes? It is all used up. The Government officers take it all out of the Treasury. Sir, it is a part of the Democratic secret-service fund; one of the main pillars on which the Democratic party now stands; the cohesive power which keeps it from breaking into fragments. With its present sins unrepented of and unforgiven, the Democratic party could not survive a single election, in any part of the country, if the doors of the National Treasury were barred against its *felonious* fingers. But bar them you cannot, so long as the people, by their votes, keep the present rulers in power; for they have learned how to open the Treasury with *false* keys, yet, under the *color* of law.

An individual in Sandusky, who has been pining away with consumption for the past year, was deserted by his unfaithful wife on Tuesday of last week, who stripped the house of everything, except a cooking stove and the couch upon which the sick man reclined, and left the city with a neighbor, who in turn left a wife and family of children. The shock proved too much for the enfeebled husband, and he died the next night. No friend remained to minister to him in his dying moments except a younger brother, a mere lad, and strangers performed the last sad rights at his grave.

Items—Editorial and Selected.

WHAT SORT OF DEMOCRACY IS THIS?—The seventy-six members of the last House of Representatives who voted in favor of raising the rates of postage were "democrats," so called. Is it democracy to increase the cost of transmitting the letters of the people? If you double the Post Office tax, the *people* have to bear it—and still, "democrats" vote for it.

REMARKABLE SEASONS.—A late London paper remarks of the winter and spring of 1858-'59 in England:

"The nightingale was heard in England on the 18th of February. That is a remarkable fact. It has been repeatedly heard since; so the declaration may be believed. Over the greater part of the pasturage of the kingdom the grass has not ceased to be green throughout the winter.

☞ A young woman at Pensacola—belonging to one of the "first families,"—was so enamored of a married man recently, that she undertook to pistol his wife in open day—but failed. Her father wants to send her to an asylum for the insane—if the law will let him.

The Legislature which has just adjourned has distinguished itself for doing nothing.—*Bath Times.*

The Times is slightly inconsistent. Hardly a day has passed without some complaint from that and other sham democratic organs, about the atrocious things that the Legislature has done.

BATHING IN MOLTEN LEAD.—A scientific correspondent says:

We have often astonished the uninitiated by passing the fingers and a portion of the hand through molten lead. This may be done with impunity if the hand is slightly moist—not wet. In many persons the natural moisture of the hands is sufficient. The melted metal is repelled by the slight moisture, and the hand can be passed through it without danger or inconvenience. A peculiar liquid velvety sensation is felt, which is not at all unpleasant.

We have still in our navy the first built American naval vessel—the first born of the American navy—the frigate United States; and likewise that just pride of our navy, Old Ironsides, the frigate Constitution. Both were built in the same year, 1797.—*Boston Courier.*

The glorious old Constitution still lives, it is true,—but she is fast becoming like the boy's jack-knife, to which he had had a new blade and a new handle.

☞ Mr. Jose Martinez, who ran away from his home in Buenos Ayres, while he was a boy, twenty years ago, and has recently been at work in a sail-loft in Boston, heard of the death of his parents a few months ago—by which event he falls heir to $300,000. He has already been married to his girl at home *by proxy*, and started on Tuesday last for his fortune and his bride. He was rather slow during the first years of his life, but is fast enough now to make it up.

☞ A DAY'S WORK.—Two hundred thousand letters were received and sent at the New York post office on the 31st ult. Over 100,-000 were foreign.

☞ The Bath Sentinel (Republican) intimates that the Times of that city is endeavoring to get away the city printing from the Sentinel office, by offering to do the work for less than a fair price. This seems to be in characteristic meanness of democratic organs everywhere—and one which we don't know as any Republican paper was ever guilty of. When the "democracy" is in power, the last thing a Republican thinks of is the obtaining of public patronage. As to city printing—if the Bath City Council would like to know how much is made by giving the work to democratic organs on the principle of taking the lowest bidder, let them inquire of the last year's City Council of Bangor.

☞ Hoop skirts were the death of Miss Margaret Marshall, of Morrisville, Va. By them her dress was so extended that she unconsciously went too near the fire, and was fatally burned.

BAD PLACE FOR TWINS.—An exchange which has a hankering for statistics says that "on an average each day throughout the year in Massachusetts, one pair of twins are born into the world, and *thirteen* die of consumption."

We derive quite as much comfort from the Connecticut election returns as we expected. We are not disappointed.—*Bath Times.*

How fortunate it is that you expect nothing from the northern elections—for you get just that! Your philosophy, however, is a good deal like that of the disappointed fox of whom we used to read in the old spelling-book.

"There is but one party in the United States" says the Charleston Mercury, "and that is the Abolition Black Republican party."

STARTLING NEWS.—We learn that a letter has been received by a firm in this city from Havana, dated 30th ult., stating that a despatch had been received from Cardenas, giving information that several sugar plantations had been destroyed by fire, and that twenty or twenty-five others were then burning.—*Portland Advertiser.*

OUR MUSICAL FRIEND.—We have on our table a weekly musical journal, published in New York by Messrs. Seymouth & Co. Terms $5 per annum; single copies 10 cents. A years subscription will accumulate a collection of music, which would cost more than ten times the amount, if procured at full prices. The work is for sale by O. R. Patch, the Bangor agent.

It is said to be dangerous to be working with a sewing machine near a window when there is a thunder-storm. It is also very dangerous to sit near some sewing machines when there is no thunder storm.

COOL IMPUDENCE.—"Will you oblige me with a light, sir?"

"Certainly with the greatest pleasure," says stranger, knocking off the ashes with his little finger, and presenting the red end of his cigar with a graceful bow.

Smith commences fumbling in his coat pocket, takes out his handkerchief; shakes it; feels in his vest with a desperate energy; looks blank.

"Well I do declare, haven't got one, true as the world. Have you another you could spare?"

"Certainly," says stranger with a smile, "and I beg you will accept it."

A short man became attached to a tall woman, and somebody said that he had *fallen* in love with her. "Do you call it falling in love?" said the suitor; "its more like climbing to it."

LOCAL AND MAINE NEWS.

OLD AND NEW STYLE TYPE
FOR CARD PRINTING!

We have received several New Specimens of Card Type, which we wish to exhibit to those desirous of having Cards Printed in the most Fashionable and Latest Styles.

NEW STOCK OF GROCERIES.—Mr. Benjamin Ball, formerly of Corinth, has leased Stall No. 5 in Norombega Market, and purchased a large stock of choice Family Groceries, which he is selling to customers at favorable prices. He also keeps on hand nice family butter, cheese and all other articles in his line.

FRENCH LANGUAGE.—Persons desirous of acquiring the French Language are reminded that Mr. Read commences a class to-day. He comes excellently recommended. See advertisement.

EXCELLENT LOTS.—It will be seen by reference to advertisement and plan in to-day's paper, that the Farmer's Bank have concluded to sell the valuable lots adjoining the elegant residence of Wm. A. Blake, Esq. The lots are well located, and are very desirable. The sale will take place May 11, at 10 A. M.

They had three inches of snow in Skowhegan on Sunday last.

The proposition to reconstruct our State Courts by reviving the Common Pleas, stands referred to the next Legislature. The petitions for the change were not numerous this year.

At the York county temperance meeting to be held at Biddeford yesterday, the Rev. Wm. Hawkins, son of the lamented Washingtonian John H. W. Hawkins, was to be present.

THE STATE FAIR.—It has been stated that the Trustees of the State Agricultural Society have decided to hold the next State Fair at Augusta. The location is a good one, and as the arrangements of the grounds made for the exhibition last year have not been changed, considerable expense will thus be saved.

The clergymen of Rockland have recommended having but one sermon in their respective churches on the Sabbath, in the afternoon; the forenoon to be devoted to the interests of the Sabbath School. The suggestion was referred to their societies to be acted on last Sabbath.

BATH SHIP ASHORE.—We learn from the Sentinel that the ship Charlotte Reed, of Bath, sailed from Havana for Sagua on the 26th ult., to load sugar for New York, went ashore on the 30th, one mile from Moro Castle. There being considerable surf at the time, she soon bilged. Her sails and rigging have been stripped, and her hull will be sold at auction.

DROPPED DEAD.—Mr. William Rowe, while at work in the woods in township No. 5, Oxford county, on Friday last. His home was in Gorham.

In the house of one of our citizens the family for some time past have been annoyed by a horrible stench, the cause of which could not be found, until a few days since, by removing some of the work around the furnace, the body of a cat was found. The poor creature had probably found her way there through the cold air box, and being unable to return by the same road, perished.—*Bath Times.*

COUNTY TAXES.—The aggregate for 1859 is $221,100—assessed as follows: Androscoggin, $16,000; Aroostook, $3,600; Cumberland, $15,000; Franklin, $5,000; Hancock, $8,600; Kennebec, $22,300; Lincoln, $12,-000; Oxford, $11,000; Penobscot, $27,000; Piscataquis, $5,000; Somerset, $9,100; Sagadahoc, $9,000; Waldo, $13,000; Washington, $14,000; York, $25,300.

AN ENTERPRISING "AROOSTOOKER."—The Clarion tells of a smart chap from Stoneham, in old Oxford county, who passed through Skowhegan last week, on his way to the Aroostook regions. Mr. Bell had built him a house or saloon on runners, which was drawn by horses, in which were his wife and six children, and they keeping house and boarding themselves on the road. Mr. Bell had but $12 in money when he started, to bear his expenses and commence operations with after he reached Aroostook. This is the stuff of which New England pioneers are made. Ten years hence, the above-named emigrant, (Mr. John Bell, Jr.,) will be among the most "independent" men in the State.

MAIL ROBBERY AT SEDGWICK.—On Saturday night last, the Post Office at Sedgwick was feloniously entered, the western mail bag cut open, and the Boston and Portland letters abstracted. Among the letters taken, was one containing a draft for $150, and another containing $10 in bills. No clue has been obtained of the robbers.

Supreme Judicial Court—April Term.

Verdict in Michael Gilligan vs. Simon F. Walker for plaintiff, $27.25. J. A. Wilson, for plff; A. L. Simpson, for deft.

Elisha Skinner and al. vs. John M. Plaisted. L. Barker and Rowe, for plff; Plaisted and Kent, for deft. Suit on a note of $1500, signed by deft., and payable to plaintiffs. Defence that the consideration of said note was the indebtedness of John Plaisted, father of defendant, and that this indebtedness was nearly extinguished. On trial when the court adj.

On motion of Joshua Hill, Esq., Samuel W. Lane; and on motion of C. P. Brown, Esq., Samuel S. Holbrook, were admitted to practice in all the courts of the State.

DISASTERS.—Barque Helen and Frances, (of Portland) Lewis, from Philadelphia for New Orleans, was lost March 21, on Moselle Inlet. Cargo mostly saved, and taken to Nassau.—About 300 tons marble, coal and machinery remained in the vessel. Vessel stripped and burnt. The H & F was built at Portland in 1843, and was of 338 tons burthen, rated A2, and owned by D. L. Cooste & Co. of Portland. Valued at $5000.

Sch. Wm. Abbott, of Bangor at New York from Foxardo, had flying jib split, and lost jibboom in a gale, April 2, lat. 35 25, lon. 74 29.

Barque Harmon, (of Harpswell,) Wood, at New York from Carcenas was run into, 4th inst., on the bar, by barque Ellen Stevens, Howe, from New York for Bordeaux, carrying away the bowsprit of the H. with everything attached; sprung fore topsail yard, split foresail and main topgallant sail. The E. S. received but little damage and proceeded on her voyage.

RUN OVER.—The cars on the Kennebec and Portland Railroad run over a cow in Portland on Wednesday afternoon, which threw off the truck the second passenger car. Fortunately no injury was done to the passengers, and but little to property.

A CASE OF INSANITY.—A young man, a stranger in this city, was picked up on Commercial Street on Tuesday afternoon by the police, and conveyed to the Watch-house, on the supposition that he was intoxicated. Subsequently it appeared that he was partially insane, and he was taken to the Alms-house. He gave his name as Robert Duncan, and says he has been several voyages at sea. His insanity takes a pious form, as he spent the whole of Tuesday night in praying.—*Portland Argus.*

A SLIGHT MYSTERY.—On Tuesday evening at about half past 9 o'clock, as a gentleman was passing up Exchange street, while crossing Federal street, from Lord's apothecary store, he heard the report of a pistol, which was immediately followed by the humming of a ball in close proximity to his head. He could not tell the direction it came from, although search was made by himself and others to ascertain the fact. The gentleman, who has quite a musical ear, declares that the hum of that ball was about as disagreeable a sound as he had ever heard.—*Portland Advertiser.*

SHOCKING ACCIDENT AT LEE.—Yesterday morning about half past 12 o'clock, a small house in Lee, occupied by Mrs. Potter, her three sons and a grandchild, was destroyed by fire and *four* of the five perished in the flames. One son escaped by jumping from the attic window. The mother, an old lady, two of the sons, one aged about 40, and the other, about 35, and the grandchild aged about 10, slept upon the lower floor and were undoubtedly suffocated, as the two sons when found, had made no struggle to escape, but laid in their bed, blackened, lifeless bodies. It was supposed that the fire caught from a pipe, probably laid carelessly down by the old lady. The sons had just returned from the woods, and had their winter's wages in the house.—One of them has been cook in the woods several winters. This terrible affair casts a gloom upon the whole vicinity. We are indebted to a friend for the above particulars, which are all we could gain last evening.

FIRE.—The public house in Oldtown kept by Mr G. W. Morrill, caught fire in the L part on Wednesday last, and was considerably burned.

A CHILD BADLY BURNED.—On Tuesday last a little daughter of Mr Peavey, who had been playing about the works of the Foundry Company, at the foot of Main street, accidentally communicated fire to her calico frock. It was not noticed, however, until she went into the street; when the high wind fanned it into a flame, which at once enveloped the child. Mr H. N. Palmer, who was near, immediately seized her, and tore her clothing off as quickly as possible, but not until she was severely burned. Mr. Palmer's hands were burned quite severely, and his clothing suffered some, but his prompt action doubtless saved the child's life.—*Belfast Journal.*

DISASTER AT VINALHAVEN.—The schooner Sparkler, lying at Vinalhaven, laden with goods from Boston, fell off from the wharf during the heavy gale of Friday night, and filled with water. A large portion of the goods will be a total loss. There was a large quantity of salt on board, which is about all lost. The cargo was owned by Wm. M. Burgess, Joseph Smith, Ezra V. Lane, and was mostly insured.

ACCIDENT.—Wednesday of last week, Mr Angus Campbell, of this city, met with quite severe injuries by a premature discharge, while blasting ledge rock in the quarry of Mr Charles Crockett. As we learn Mr Campbell had ignited the match and stepped back a pace or two, and was standing on a large loose rock, when in some manner, the fire was communicated to the powder, and the discharge took place. The large rock on which Campbell stood was lifted with him on it, and by which he was protected from the blasted rocks; but by the fall his right leg was dislocated at the knee, and the last end of the split off. He is doing well.—*Rockland Democrat.*

THE SECOND PASSAGE AT ARMS.—The Augusta correspondent of the Boston Journal thus refers to the unwonted scene in the House on Thursday of last week:

During the debate on the Aroostook Railroad, Mr McCrillis of Bangor gave Mr Pike of Calais certain sharp words that so stung him that he repeated the process he tried the other day on Mr Poor. He struck at Mr McCrillis in the midst of his speech. Had not Mr McCrillis been immediately seized, and prevented, he would have taught Mr Pike a lesson. The greatest excitement and confusion prevailed for a few minutes, the hammer of the Speaker having no sort of effect on the excited House. Mr Pike produces in his gladiators as well as in other efforts with his mind than he has yet succeeded in accomplishing with his fist; and his friends, as well as those who love the good name of the State, hope he will exercise his superior mental abilities hereafter, instead of his not at all superior physical power.

The Californians are exceedingly indignant at the failure of the Pacific Railroad Bill, and even talk about revenging themselves by secession. They have a right to be indignant; and we deem that course highly advisable; but we don't believe they will go out of the Union just yet. It is thought the advantages of the connection are quite as great to California as to any body else, and that her people will conclude to have patience. If they must do something, we recommend that they cut loose from the sham democracy; for as long as that prevails in Congress, California will get no railway connection. The efforts of that party will be confined to a southern slaveholders route, which no capitalists will ever undertake to build, because there is bound to be a northern route sooner or later, which would take nine-tenths of the business if there were two roads.

The Broadway Theatre, in New York is going to pieces. It was built in 1847 by Alvah Mann, and for some time was the principal theatre in the city. Of late years it has been declining in popularity, and has recently been almost wholly deserted. It will give place to a block of stores.

On the first day of the Sickles trial one witness said he was disqualified in consequence of the relation he bore to the accused. On being asked what that relation was, he stated that he was a married man.

Mrs. Hartung, the husband poisoner condemned to death at Albany, has become a raving maniac, and has to be bound hand and foot to prevent her from destroying herself.—The Governor has directed her to be removed to the insane prison at Auburn.

A WHOLESALE SWINDLE.—A boot and shoe house in New York, one of whose partners resides in Grafton, bought, in the month of March, very large purchases for their trade, partly on time, but mostly for cash, payable on delivery. The goods are supposed to have reached their destination but no money came back in return. The creditors visiting New York, found the store empty, except the Irishman in charge. Among the losers, we hear of a large Spencer house, to the amount of $6000; two Webster firms, one for $2800 and one for $1600; and about $3000 more in Oxford, to different firms. The gross amount will not be less than $15,000.—*Worcester Transcript.*

A Word of Warning.

There is nothing more despicable than stealing the reputation of a reliable article to impose upon community an inferior and worthless one, and yet it is often done. *Fifteen years ago* Bohnstedt & Co. introduced a Hair Restorative, under the name of "Inimitable Hair Coloring." Its wonderful restorative properties made it immensely popular, and grey and bald heads were like to become a thing of the past, when the country was flooded with imitations, the use of which was not only useless, but absolutely injurious. *The original preparation is a scientific combination,* made with oil and stimulating spirits, affording an agreeable hair wash, while all the imitations are made with water, making the hair harsh, dry and frizzy, requiring, after it dries, the use of oil or wash to make it look decently. We would therefore advise our readers to buy nothing but the *original Inimitable Hair Coloring or Restorative,* which is reliable.—*Troy Whig.*

LATER FROM EUROPE.

ARRIVAL OF THE

Steamship Indian,

AT PORTLAND.

PORTLAND, April 7.

The steamer Indian, from Liverpool 23d ult., arrived here at 2 A. M. to-day.

In the House of Lords, on 22d, the bill amending the marriage law, legalizing marriage with a deceased wife's sister, was defeated and lost by a vote of 49 to 39.

In House of Commons, D'Israeli said the terms of subsidy to the Galway line of steamers were substantially arranged, but not definitely settled.

The debate on the Reform bill was resumed. Wilson, Sidney Herbert, Crossley and others spoke against it, and Sir E. Bulwer, the Solicitor General and others in favor. The debate was adjourned till the 24th.

The Gazette confers sundry honors on numerous Indian officers.

It also announces the appointment of Geo. Hunter Carey to Attorney General of British Columbia.

The appointment of Dowling as U. S. Consul to Cork is officially recognized.

Latest.

London, Wednesday. Daily News' city article says a considerable degree of indecision prevailed amongst speculators on Tuesday.—In the morning the Moniteur's announcement of a Congress caused consols to advance ⅛, but subsequently lower prices came from Paris, and a vague rumor circulated that Austria declined to accept the proposed Congress, which caused a fall in foreign exchanges and a reaction on the stock exchange—consols closing ⅛ lower than on Monday. All markets at the close were comparatively depressed.—Money in good demand in the street, but quiet at the bank. The supply has increased, and in a few cases the rate is below the bank minimum.

The Times' city article says funds opened steady on Tuesday at improved quotations, but speculative sales on foreign account caused a re-action, the market closing heavy. A slight increase in the demand for money assisted in checking the buoyancy.

There is much disappointment and some anxiety as to the delay in the arrival of the January mail from Australia.

In regard to the projected Congress, Geneva, London, Brussels, and the Hague, have been successively mentioned at which it will be held, but the Times believes Aix la Chappelle will ultimately be selected.

The Daily News says Bulwer's speech last night on the reform bill was thoroughly successful as an oratorical effort, but it was not an argumentative one. He denounced all concession to the working classes, as subversive to the freedom, safety and honor of England. The Herald takes entirely opposite view of Bulwer's speech, and says he boldly grappled with the absurd charge that the ministers are afraid of the influence of the working men, and have not consulted their interests.

France.

The Moniteur of the 22d of March contains the following:

Russia has proposed the assembling of a Congress with the view to prevent complications to which the condition of Italy might give rise, and which would naturally disturb the peace of Europe. The Congress proposed is to be composed of plenipotentiaries from France, Austria, England, Prussia and Russia, and to be summoned to meet in some neutral town.

The French government has given its assent to the proposal of the Russian cabinet.

The cabinets of London, Vienna and Berlin have not returned an official reply.

[illegible] article cited a further rise on bourse of a quarter and half per cent, but subsequently was reported Austria refused proposition for Congress on Italian affairs, and a reaction occurred—rentes closing dull at 68 50, money 68 65 account. Rumors of another grand review of the entire army of Paris, Sunday, the 27th.

Le Nord believes that in the new European Congress treaty of 1815 will be taken as starting point for negotiations, that is, it has been resolved not to unsettle territorial arrangements made in that year.

The Post's Paris correspondent says: "No basis yet agreed upon for negotiations."

The Moniteur contains a report by M. Delangle on the subject of Protestant worship in France. Henceforth, in order to increase guarantee for liberty of worship, the authority for opening new Protestant Chapels, &c., will be accorded, not by prefects, but by the Emperor, in his Council of State.

The Globe's Paris correspondent, says that [illegible] will be naturalized upon arrival in Piedmont, and enter Parliament at earliest [illegible].

Continental letters describe uninterrupted warlike preparations on the part of France, Austria and Piedmont.

Russia.

Disagreeable sensations had been produced in official circles at St. Petersburg, by the declaration of a Committee of the Government of Tver, respecting emancipation. The Nobility express the opinion that the reform is the ruin of Russian nobles.

The Committee demands recompense for lands ceded to Peasants, and advises the Nobility to break off all communication with them.

The document indicates a profound sentiment of bitterness and irritation.

India.

The details of Bombay news to the 25th of Feb. add little of interest to telegraphic accounts.

The Sepoys continued to surrender, and were generally starving.

The amnesty, under latest instructions from Lord Canning, had produced remarkable results—7000 men had surrendered in Bareilly, above 1000 in Budaon, and 1700 in Shapjehanpoor, Moradabad, and Bijnour.

Lord Clyde, it is said, will remain in India for the remainder of the year.

Precautions will be taken to prevent the return of rebels into Oude.

Cotton goods were all lower, but stocks were very light. Freights to England were looking up.

The Sickles Trial.

WASHINGTON, 7th.

The trial commenced in earnest to-day, and the interest in it is becoming intensified. As soon as the doors were opened the Court room was filled with a throng, pressing and crushing to obtain a glimpse of the prisoner in the barbarous looking arrangement to which he is consigned by the usage of the Court, though he sits throughout each day's proceedings apparently calm and unmoved. When he gets back to his prison apartment he shows signs of exhaustion, and when alone, which is not often, he is said to be a prey to sorrowful reflections—not that he regrets the act for which he is now on trial—no compunctious thought of that visits his mind; but when he thinks upon his blighted home, and the ruin that has been wrought by the villainy of a false friend, his habitual self-possession gives way, and nature asserts her supremacy.

The Washington papers have published a statement that Mrs. Sickles is now in this city. There is no truth whatever in the statement. The lady's father contradicts it in the most positive manner. He says, since she left her home here, she has been residing under his roof in New York, under the protection of her mother, and hopes her name will not be wantonly or unnecessarily dragged in before the public. He and Mr. Sickles' father remain together in court all the time. Mr. Graham complains that letters passing between him and Mr Sickles have been tampered with in the Post Office; some of them have been opened in transit and others have not reached their destination.

The court opened at 10.15 A. M. After some delay, the names of the eleven jurors already sworn were called, and all answered.

Alphaeus S. Wright, the twelfth juror was sworn and took his seat in the jury box, when the twelve jurors were called and answered.—Their names are as follows:

Rezin Arnold, Washington county, farmer.
James B. Davis, Washington Co., farmer.
John E. Neale, Washington county, shoe manufacturer.
William S. Hopkins, Washington county, gents furnishing store.
William Bond, Washington county, broker.
James Kelley, Washington county, tinner.
William C. Harper, " " grocer.
Henry M. Knight, " " grocer.
James B. Wilson, " " grocer.
John McDermott, " " coachmaker.
William M. Morse, " " grocer.
Joseph S. Wright, Washington co., furniture dealer.
Alphaeus S. Wright.

Clerk to the prisoner—Stand up Daniel E. Sickles;

Mr. Sickles stood up in the box.

Clerk—Daniel E. Sickles, look upon the jurors while the indictment is being read.

The indictment was then read to him.

Clerk—Upon this indictment the prisoner has been arraigned, and on his arraignment has plead not guilty; and he has put himself upon his country. That country you represent, and this indictment you are to try.

District Attorney Ould opened the case for prosecution by making an eloquent and effective statement of the murder, amid the breathless attention of the Judge, Jurors, and audience. The Judge said it was unusual here to have the openings made on both sides before any of the evidence was presented, but he presumed the counsel for the defence would prefer to reserve their opening till the case for the prosecution was closed. Mr Brady replied that the counsel preferred the latter course. The Judge said that while the former was the usage of the Court, the wish of counsel was always consulted by him.

The witnesses for the United States were then called into Court, answered and were severally sworn, such being the practice.

Some delay occurred which the District Attorney explained by saying he was waiting for a witness to examine first who was not in court. He had sent for him. This witness was James B. Reed, a policeman. He shortly after came into court, and was sworn.

He gave a minute description of the locality where Mr Key was shot, the manner of the shooting, and the relative positions of the parties during the enactment of the melancholy occurrence. He was not personally acquainted with either party.

Several other witnesses were examined, but their evidence was merely in corroboration of the testimony of the first witness; and no new feature of the case was elicited from the cross examination.

MOBILE, 6th.

There is an improved demand for cotton.—Sales to-day 4000—middling twelve quarters.

MILWAUKIE, 7.

Returns indicate the election of Byron Paine, Rep., as associate justice of the Supreme Court by 5000 majority.

[The telegraph wires were occupied with the evidence in the Sickles trial up to the time of our going to press, consequently we are without our usual supply of news items.]

Legislative Proceedings.

MONDAY, April 4.

In the Senate.

Resolve providing for commissioners to take the State valuation, was amended and passed to be engrossed in concurrence.

Mr Stinchfield offered a resolve for the publishment of the Aroostook Railroad act, (publishing it in the State paper and in the newspapers which publish the laws.) Passed to be engrossed.

The resolves on slavery were taken up.

Mr Goddard moved to amend by adding the last resolve reported by the minority, to the resolves of the majority, in relation to "black men pre-empting lands."

He held that the sense of the Legislature should be expressed on this new outrage, of refusing black men the right to pre-empt land.

The amendment was agreed to—yeas 17, nays 4.

The resolves then passed to be engrossed—yeas 23, nays none.

Engrossed bill authorizing the city of Bangor to loan its credit to the Aroostook Railroad to an amount not exceeding $500,000 came up on its passage to be enacted. Mr Hamlin moved its reference to the next Legislature.—It was an extraordinary proposition. There was no company in existence. The city of Bangor had had no opportunity to be heard.—He did not know their wishes. No application had been made by an inhabitant of that city for the bill.

He did not make his motion from any factious motives, but from a sense of duty.

Mr Thissell could see no harm in the passage of this bill, as it provided a two thirds vote.—Bangor had once expressed itself in favor of a loan to this road.

Mr [illegible] said that Bangor had once voted to loan its credit to this road, and he was in favor of giving them another opportunity to vote on the question. It was "popular sovereignty."

Mr Carleton opposed the motion. If this bill was not to pass, he would go for a repeal of the bill granting the lands. It was understood from first to last that Bangor was to loan its credit to build the road to Mattawamkeag, as the basis of the grant.

Mr Wing did not vote for the land grant with the understanding that he was going for a loan bill.

Mr Stinchfield did not understand Bangor to be opposed to it.

Mr Hamlin said Bangor had had no notice of the bill, and had had no opportunity to be heard.

Mr Thissell was a representative from Bangor as much as his colleague. They both were the representatives of the entire county, without regard to locality. Bangor had once voted to loan its credit to this road, in the sum of $350,000. The city had three years to face the question in. He opposed the reference and advocated the bill. He regretted to be placed in the embarrassing position which the course of his colleague had placed him in.

Mr Hamlin said the people of Bangor voted it down at the second meeting.

Mr Thissell offered an amendment requiring a certain amount of capital to be paid in, by the Railroad Company, before the Company could get the benefit of the loan. The amendment prevailed, and the bill as amended passed to be engrossed.

Engrossed bill to authorize the city of Bangor to loan its credit to the Aroostook Railroad came up on its passage to be enacted.

Mr Thissell trusted the bill would receive a passage.

The bill then passed to be enacted.

In the House.

Bill for the appointment of trial justices, being on its passage to be enacted was on motion of Mr Rice of Hampden referred to the next Legislature.

On motion of McCrillis of Bangor,

Ordered, That the Secretary of State be and he hereby is authorized and directed to furnish to each of the workmen employed about the State House a package of stationery, the same as that furnished to members of the Legislature.

On motion of Mr Blaine the bill to enable certain railroad corporations to unite, was taken up, and referred to the next Legislature.

TUESDAY, 5th.

[The Legislature adjourned finally on Tuesday. After the completion of the business the usual complimentary resolves to the presiding officers were offered—in the Senate by Senator Hamlin and in the House by Mr Talbot of East Machias. Remarks were made by Senators Hamlin, Wing and Fletcher, and by Messrs Talbot, Fisk and Prentiss of the House,—and responded to by the President and the Speaker. After which the resolves unanimously passed. Resolves of thanks to the Clerks, Secretaries and Messengers.

RICHES TAKING TO THEMSELVES WINGS.—Friday afternoon an elderly Quaker gentleman, while on his way from Boston to Salem, undertook to pass from one car to another while the train was at its highest speed. The wind was powerful, and his extensive hat, which fitted rather loosely, was of a sudden detached from his head, and whirled sportively away across the meadows. The loser's countenance assumed a hue more deadly than his raiment. Rushing through the cars in a very wild and un-Quaker like manner, with hair rigidly erect and coat tails streaming comet-wise behind, he flung himself upon the conductor and his sense of compassion, and besought him to check the train until his property could be recovered. It was not the hat—though that was valuable—but in its lining snugly reposed a note for one thousand dollars, at the thought of losing which the spirit moved him to very nearly rend his hair. Of course the conductor stopped the train, and through the kind offices of a brakeman the vagrant piece was restored, with its valuable contents, and the Quaker subsided again into a state of calm and contented drab.—*Boston Courier.*

The last case of "child lost" is related as having occurred down in Mobile, where a small boy, walking along with his mother, wished to change position and get on the outside, but unfortunately, he had such a distance to go to get round the lady that he lost his way and has not since been found.

Some workmen at St. Louis left a whisky bottle where a couple of little boys, about five years old, got to it and drank of the whisky, which gave one of them a ravenous appetite and he ran home to appease it. The other was stupefied, and died in spite of medical efforts to revive his life.

California Steamers,

Carrying the United States Mail.

5th and 20th of each month.

Through Tickets, including transit of the Isthmus, via Panama R. R.

CAUTION TO THE PUBLIC.

On account of the numerous frauds and impositions on travelers, those bound to California are cautioned to buy Tickets at the only authorized Agencies of the United States Mail Line, as below.

By order of the Post-master General, the United States Mail Steamers will hereafter be despatched from New York to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense*. This is the *only line* giving entire Through Tickets, guaranteeing no detention on the Isthmus.

Transit made in *four hours, entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation, over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a *sure* and *short* passage, with the greatest comfort and safety to health.

American & Foreign Patents

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington (under the Act of 1837.)

76 State St., opposite Kilby St.,

BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also, in Great Britain, France, and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, of ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents."

Boston, February 8, 1858.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGERT."

From Sept. 17th, 1857, to June 17th, 1858, the subscriber, in course of his large practice, made on twice rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

PERRY DAVIS'

Vegetable Pain Killer!

REV. T. ALLEN, writing from Tavoy, Burmah, says:—Within the past four years I have used and disposed of above five hundred bottles of your Pain Killer. Please send me a fresh supply (through the Mission Rooms) of, say, two hundred bottles. I dare not be without it myself, and there are endless calls for it both by Karens and Burmans. I always take it with me into the jungles, and have frequent occasions to use it upon myself and others.— One night, while sleeping in an open Zayat, I was awoke by a most excruciating pain in my foot. On examination I found I had been bitten by a Centipede. I immediately applied the Pain Killer, and found instant relief. In less than an hour I was again asleep."

Rev. H. L. Van Meter, of Bassein, India, writes:—Here let me assure you that we prize your Pain Killer very highly. For the first two or three years of our residence in India we were ignorant of its valuable properties, and did not use it, but now we could hardly feel safe without it for a single day. Only a few nights since Mrs. Van Meter was stung by a scorpion, and intense pain was instantaneous throughout the arm, and upon a numbness of the fingers followed. By the continued application of the Pain Killer, for an hour or more, and at intervals during the night, the alarming symptoms were subdued, and in the morning only a slight soreness was felt in the finger. I have used it in a severe case of Fever and Ague, according to directions, and it acted like a charm, breaking it up at once. The Karens have great confidence in it."

Mr. W. L. Carpenter writes from Calcutta:— "Perry Davis' Vegetable Pain Killer is a very valuable medicine, and most people here that have used it entertain a high opinion of its worth."

Bombay, Dec. 17th, 1857.

Messrs. P. Davis & Son—Gents: We have sold the shipment of Pain Killer per ship Mathie, and hope to close that per Equator in a few days. Herewith find a draft for £59 on the Mercantile Bank of India, London and China, to our credit. Hope to remit you soon for sale ex Equator and Art Union. Yours truly,

DOSSABHOY MERWANJEE & CO.

Melbourne, Australia, May 14, 1858.

Messrs. P. Davis & Son—Gents: The [illegible] with 51 boxes, and the "Castle of Mallow" with 68 boxes of your valuable Pain Killer, have arrived, and the Pain Killer is sold at [illegible]. Neither of the lots are landed yet, but we hope they will be in time for the [illegible]. Your account sales and remittance by this mail. These two shipments are divided among four different buyers, two of whom would each have taken the whole 119 boxes, if we would allow it. This is the best compliment we can make of your Pain Killer. Send us frequent shipments. NEWELL, HOOPER & BREWER.

THE LIVER

INVIGORATOR,

PREPARED BY DR. SANFORD,

Compounded entirely from Gums,

IS ONE OF THE BEST PURGATIVE AND Liver Medicines now before the public

The Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, *purifying the blood*, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

Bilious attacks are cured, and what is better prevented, by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

The Honey Blade Grass.

THE results which have been attained, by experiments in the cultivation of this newly imported species of product, have awakened an interest among the farming classes, in many sections, never before equalled in the entire history of our agricultural industry. Facts, in regard to its valuable properties, which at first seemed almost incredible, have now been established beyond the possibility of a doubt, and it is believed, by those best capable of judging of its merits, that its general introduction will add millions of dollars to our agricultural wealth. I have not the space here to enter into details, but will present briefly some of its advantages.

First—It will produce double the weight to the acre in any soil, of any other kind of grass.— From four to six tons per acre is not an uncommon yield, and I am in possession of sworn statements by responsible and reliable persons of a yield of over eight tons of good dry hay from a single acre, on soil where it was not possible to get more than one half the amount from any of the common grasses.

Second—The same weight possesses more nutriment, and, consequently, will sell for a larger price in the market, thus insuring the farmer more than double the return from his grass fields that he could obtain from any other forage plant. The hay possesses one third more nutriment than timothy, and has sold for $15 per ton, where the price of timothy was but $10 or $12.

Third—Both hay and seed can be produced from the same crop, the hay being equally valuable after the seed is taken from it, which when threshed is as valuable as the best of other grain; as a feed for horses, cattle, pigs, chickens, &c., and it is proved to be superior to linseed for the manufacture of oil and meal, always finding a ready sale, at a fair price, for this purpose.

Fourth—It matures in about two months' time, and can be sown on grounds where other crops have failed, either by drouth or other causes, and at the same time, will yield a large return.

Fifth—In northern States, where clover and other grasses are killed out by hard winters, this will yield a large crop, and, in those sections of the South where other grasses will not thrive at all, it will grow very productive.

Sixth—It will stand all sorts of weather, and whether the season be wet or dry, the farmer may always rely upon his *Honey Blade* as a sure crop.

These and other advantages are proved by facts which are endorsed by some of the first agriculturalists of the Union, and cannot fail to carry conviction to every intelligent reader.

Having been engaged, during the past year, in the purchase and importation of the pure *Honey Blade Seed*, I have determined to offer it for sale on such terms as will make it an object for every farmer and planter to interest himself, during the coming season, in its cultivation. It is put up in uniform bags, of about sixteen pounds each, the amount being sufficient to seed one acre, and the price is $3 per bag, delivered in New York or St. Louis.

Single bags, or more, can be sent to any part of the country as freight or by express, and I will be put up, enclosed for transportation, and the proper arrangements made, free of charge.

Each bag is stamped with the Hungarian coat of arms, and the following lettering, "*Honey Blade Hungarian Grass Seed.*" It will be sold by agents in various sections, but parties should be careful of whom they purchase and secure the pure genuine seed. They are especially cautioned not to purchase the common Hungarian Grass Seed, as it is very far inferior to the HONEY BLADE.

An interesting pamphlet, containing all of the facts, and full particulars, will be furnished, free of charge, by me or any of my agents, upon application. I will state, as an indication of the intense interest which the subject is exciting, that nearly a quarter of a million of copies of this pamphlet have already been applied for.

Parties desiring to secure seed should order at once, as the indications are that the limited amount obtained will be exhausted long before the season of sowing has passed. Those who secure seed this year can realize a rich return, by producing seed to supply the demand of farmers and planters for sowing next year.

Orders should be sent directly to me, unless in the vicinity of New York, where they will be filled by J. M. Emerson & Co., 406 Broadway, New York, General Agents.

Agricultural Houses, General Merchants, and any other parties properly situated, are invited to become agents for the sale of the *Honey Blade Seed*. Authority, full particulars, and from 50 to 100 pamphlets for distribution, will be furnished either by me or the New York Agency, on receipt of 25 cents, to prepay the package.

I am authorized to name the following well-known gentlemen as references: Hon. J. R. Barrett, President of the St. Louis Agricultural and Mechanical Association, Vice President of the National Agricultural Society, and Member of Congress elect from St. Louis; Gen. T. Tilghman, Oxford, Md., President of the National Agricultural Society; John J. Anderson, Banker, St. Louis; John Riggan, Jr., Broker, St. Louis; and ex-Mayor Washington King, St. Louis.
